END-SEM PROJECT RUBRIC

GenAI & Agentic AI Evaluation Criteria

EVALUATION COMPONENTS

1. TECHNICAL IMPLEMENTATION / 10

- **Correctness & Completeness:** Does the Agent/GenAI system solve the core problem?
- **Technical Depth:** Implementation of advanced topics (RAG, LangGraph, Agents).
- **Design Choices:** Justification for LLMs, prompts, and vector DBs used.
- **Performance:** Quality of reasoning, retrieval relevance, and generation.

NOTE: *Students must use **Agentic AI** or **GenAI-based** methods. Traditional ML/DL models alone are NOT sufficient for this phase.*

2. GITHUB REPOSITORY & CODE QUALITY / 10

- **Readability:** Clean, modular code (separation of Agent/RAG logic).
- **Structure:** Well-organized repository.
- **History:** Consistent commit history properly versioned.
- **Documentation:** Clear `README` with API keys setup (env) and run instructions.

NOTE: *Evaluation may be assisted by automated profiling tools.*

3. HOSTED LINK / LIVE DEMO

/ 10

- **Deployment:** Application is publicly deployed (HuggingFace/ShareStreamlit).
- **Stability:** Robust handling of API calls and errors.
- **Robustness:** Handles hallucinations or retrieval failures gracefully.
- **Usability:** Professional User Interface.

IMPORTANT: *Higher weightage to align with internship readiness.*

4. PROJECT REPORT (LATEX)

/ 10

- **Structure:** Professional research-paper style structure.
- **Technical Explanation:** Clear explanation of Agentic workflows and RAG pipelines.
- **Results:** Analysis of model performance and qualitative examples.
- **Formatting:** Professional LaTeX typesetting.

5. PROJECT VIDEO (5 MINS)

/ 10

- **Explanation:** Clear narrative of the Agent's problem-solving capability.
- **Demonstration:** Live walkthrough of the Agentic workflow.
- **Quality:** Professional audio/video production.

RECOMMENDED WEIGHTS

The final score is calculated based on these weighted components.

COMPONENT	WEIGHT
Technical Implementation	0.35
GitHub & Code Quality	0.15
Hosted Demo	0.15
Project Report (LaTeX)	0.20
Project Video	0.15
TOTAL	**1.00**
